

October 2026 Dispatch from **VJ Kapur, ANC 5C07**

Top-of-Mind issues:

- **Langdon Elementary traffic safety improvements:** DDOT has moved back into data collection and outreach on the permanent one-way conversion while it installs a raised crosswalk and other improvements surrounding the school.
- **Langdon Park Community Center modernization:** After 5C/community concerns and $14.5M in additional funds secured by CM Parker, DPR updated plans with a new, larger building with two full-size gyms. Advocacy continues for a fitness center, curbside programming to recoup parking lot footprint, and more verticality/roof activation. DPR outreach and details forthcoming on the skate park and playground.
- **End of tenure:** It's been an honor to represent my community four years, but I'm not running for re-election. I look forward to supporting Cmsr-presumptive Latoyia Allen next term!

Don't forget to vote by 11/3!!
