

Dear residents of Green Valley Apartments,

As your ANC Commissioner, your needs and well-being are my highest priority while the community and Commission 5C deliberate on the zoning relief requested for the planned modernization of your homes and building.

The plans are to renovate all 100 homes in the building in phases, to ensure residents get to stay in place. The zoning relief is related to minimal retrofits to the building;

- adding a new elevator enclosure to the rear of the building for a third (larger) elevator
- expanding the entryway for easier wheelchair access and more accessible mailboxes.

I'd love to hear your thoughts, answer questions, and help get your voice heard on the official records; please reach out!

Very respectfully,
VJ Kapur, ANC 5C07
